From Our Child Safe Commitment

St John's College is fully committed to child safety. We want our students to be **safe**, **happy** and **empowered**. We support and respect all students, as well as our staff and volunteers.

Introduction

St John's College is committed to providing a welcoming, safe, and inclusive environment for all. Our College focuses on keeping children safe. It helps and looks after all students; old and young, students with different beliefs, needs and backgrounds. Staff, volunteers, students and their families work together to keep children safe from harm.

Purpose

Our Child Safety Policy supports the College's strong commitment to child safety and wellbeing. Our goal is to create and maintain a child safe and child-friendly environment that supports our students to feel **safe**, **happy** and **empowered**. The policy gives guidance on how to keep our students safe. It helps our community understand their responsibility to child safety.

PROTECT

Child Safe Standards

The College's commitment to child safety is based on the National Principles and the Victorian Child Safe Standards.

St John's College has also developed child safe principles and values relevant to its own specific circumstances that guide us all at the College, such as our 'Shared Expectations'.

Professional Learning for Staff

Staff, volunteers and visitors have training before they begin at the College to understand their responsibility to child safety. They also have ongoing child safety training updates to make sure they keep learning about the government requirements for child safety and know what to do.

Risk Management

We all know that it is important to keep our College safe. All staff are responsible for identifying and managing risks to student safety. The College looks for problems or things that might be unsafe. If there are any problems, the school will fix them. Children and young people must let an adult know if they see a risk.

St John's College takes a zero-tolerance approach to child abuse and is fully committed to ensuring that its strategies, policies, procedures, and practices meet all Child Safety Standards as specified in Ministerial Order No. 1359 (2022).
